GILDAS ROCHINEL SIMO SIMO

Full-Stack Web Developer
Moncton, New Brunswick, Canada | simosimogildas@gmail.com | +1 428 880 8006 | Github.com/lastrat
Portfolio: https://gildas-simo.freedev.app/

PROFESSIONAL SUMMARY

Detail-oriented Full-Stack Web Developer with over 3 years of experience in designing, developing, and deploying complex web applications, including ERP systems, Learning Management Systems (LMS), SaaS platforms, and AI-powered solutions. Strong proficiency in the PHP ecosystem (Laravel, CodeIgniter), JavaScript technologies (React, jQuery, Tailwind CSS), Python (Django), and MySQL database architecture. Proven experience in UML modeling, AI agent and module integration, and collaborative work within Agile/Scrum environments. Results-driven and eager to leverage technical expertise to build high-performance, scalable application solutions.

TECHNICAL SKILLS

- **Programming Languages :** PHP, JavaScript, HTML5, CSS3, Python
- **Frameworks & Librairies :** Laravel, React, CodeIgniter, Django, jQuery, Bootstrap, Tailwind CSS
- **CMS & Tools :** WordPress, Git, GitHub, MySQL, Google Sheets
- **Méthodologies & Cloud :** Agile / Scrum, UML, Linux, Docker

---

PROFESSIONAL EXPERIENCE

Ghostroar Digital — *Full-Stack Web Developer*
2023 – 2026

Design, development, optimization, and deployment of custom web applications across various industries.

- **Mmsart Recovery (Debt Collection & AI)**
  - Designed the MySQL database and developed full-stack features using Laravel and JavaScript to centralize debt collection operations.
  - Designed and integrated an interactive AI module with voice chat to automate customer follow-ups.
  - Implemented secure authentication and role-based access control (RBAC).
  - Developed RESTful APIs, conducted integration testing, and deployed containerized applications using Linux and Docker.
- **Tresor Hotel (Hotel Management ERP) | tresor-hotel.com**
  - Architected and developed an ERP system using Laravel, covering reservations, billing, and financial tracking.
  - Designed and optimized complex SQL queries to minimize response times and ensure high availability.
  - Built interactive dashboards featuring key performance indicators (KPIs), inventory status, and financial reports using jQuery and Bootstrap
- **BCC (Business Plan Generation) | bcc.adi.cm**
  - Developed a SaaS solution for creating and automatically tracking business plans.

    - Implemented financial calculation algorithms for forecasting and profitability analysis, along with dynamic PDF and Word document exports.
    - Optimized UI/UX workflows and secured sensitive financial data.
- **IFPTII (E-learning Platform) | ifptii.com**
    - Designed the architecture of a modern Learning Management System (LMS) using Laravel, with dedicated interfaces for students, instructors, and administrators.
    - Developed training progress tracking, content upload, and online assessment features.
    - Automated the dynamic generation of official PDF certificates and attestations, as well as email notifications.
- **Zukulu (School Management System) | zukulu.ifptii.com/plateform**
    - Developed a school management platform using CodeIgniter, covering student enrollment, tuition management, grades, and report cards.
    - Developed a school management platform using CodeIgniter, covering student enrollment, tuition management, grades, and report cards.
    - Designed a scheduling algorithm to prevent conflicts between classes and classrooms.
    - Optimized MySQL queries and implemented data caching to improve loading times.
- **T2FC – Agricultural and Livestock Management**
    - Developed a web application for monitoring agricultural operations, real-time production, and inventory
    - Implemented a cost accounting module to optimize expenses and generate restocking alerts.

EDUCATION

- **Bachelor's Degree in Software Engineering | 2021 – 2024**
  African Institute of Computer Science (AICS), Yaoundé, Cameroon
  Canadian equivalency : ***Bachelor's Degree***

- ***General Certificate of Education | 2021***
  Government Bilingual High School of Yaounde

LANGUAGES

- **French :** Fluent
- **English :** Intermediate
